Who We Are

Pest-Ex was established 16 years ago in Australia by husband-and-wife team Danny and Maria Kelly. Since its inception, the company has expanded nationwide and is widely recognized as one of Australia's leading professional pest control providers.

Over the past 16 years, Pest-Ex has successfully protected more than 10,000 homes and businesses. Built on integrity and professionalism, the company has earned a strong reputation as an industry leader in pest and termite control.

Through regular visits to the Philippines to see family and friends, Danny and Maria identified an opportunity to extend Pest-Ex's professional services to Manila. Drawing directly from the proven Australian business model, Pest-Ex has rapidly expanded throughout Manila as a trusted pest control provider. As a privately owned company rather than a franchise, Pest-Ex maintains strict quality control and ongoing training to ensure consistently high service standards.

Pest-Ex delivers innovative, safe, and effective pest control and termite treatment solutions. Now recognized as one of the most respected pest control companies in the Philippines, our qualified team services Manila, Makati, and Quezon City, offering comprehensive pest control and prevention services for both residential and commercial clients.

What We Do

Pest-Ex offers professional pest management services designed to protect homes, businesses, and commercial properties from a wide range of pests. Specifically, the company provides:

Core Services

1. General Pest Control

- Elimination and prevention of common household and commercial pests such as ants, cockroaches, rodents (rats and mice), spiders, fleas, mosquitoes, and bed bugs.
- Tailored treatments based on property type, infestation level, and pest species.

2. Termite Inspection and Treatment

- Comprehensive termite inspections to identify active infestations or risk factors.
- Advanced termite control solutions, including soil treatments, baiting systems, and targeted eradication strategies.
- Preventive measures to protect structures from future termite damage.

3. Residential Pest Solutions

- Customized service plans for houses, apartments, and condominiums.
- Safe and family-friendly pest control applications.
- Ongoing maintenance programs to keep homes pest-free year-round.

4. Commercial Pest Management

- Integrated pest management (IPM) strategies for offices, retail spaces, restaurants, warehouses, schools, and other business environments.
- Scheduled service contracts to maintain compliance with health, safety, and industry standards.

Why Choose Us

1. Built on Proven Australian Standards

Pest-Ex Philippines operates on systems, training, and service standards developed over 16 years in Australia. Our processes are structured, disciplined, and performance-driven — not improvised — ensuring consistent, measurable results.

2. Not a Franchise — Full Quality Control

Unlike franchise operators, Pest-Ex Philippines is privately owned. This allows us to maintain complete control over training, methods, and service quality, with continuous oversight and accountability at every level.

3. Risk Management, Not Just Pest Control

We go beyond treatment. Our approach focuses on identifying risk, preventing recurrence, and protecting property value, health, and business continuity — especially critical for commercial and high-value residential clients.

4. Experienced, Professionally Trained Team

Our technicians are trained to industry best practices and continuously upskilled. Every service is delivered with technical precision, clear communication, and respect for your property.

5. Safe, Responsible, and Transparent Solutions

We use carefully selected treatment methods that prioritize safety and compliance while delivering effective results. Our recommendations are honest, practical, and based on what your property actually needs — nothing more, nothing less.

6. Designed for Both Residential and Commercial Clients

From private homes to offices, restaurants, and facilities, Pest-Ex delivers tailored pest management programs aligned with operational requirements, compliance standards, and long-term prevention goals.

7. Trusted Across Metro Manila

Serving Manila, Makati, Quezon City, Alabang, Muntinlupa, Tagaytay, Cavite and surrounding areas. Pest-Ex Philippines is recognized for reliability, professionalism, and consistent service delivery — building long-term client relationships, not one-time transactions.

Results-Driven Approach

Customized Solutions

Experienced Team

Trusted, Safe and Effective

Our Mission

To protect people, property, and reputation by delivering pest management solutions that are precise, responsible, and built for long-term results. Pest-Ex Philippines exists to remove risk, not just pests — through disciplined processes, skilled professionals, and transparent service that clients can rely on with confidence.

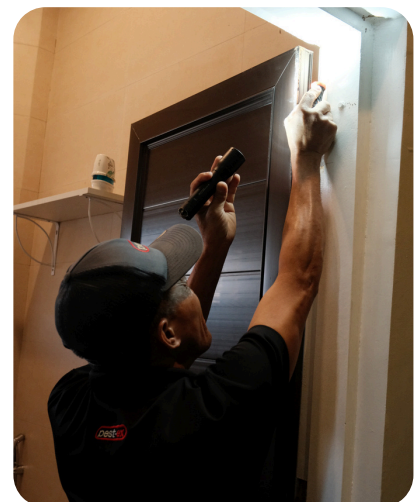

Our Vision

To redefine pest control in the Philippines as a professional risk-management service — where prevention is proactive, standards are uncompromising, and service quality is measurable, consistent, and trusted nationwide.

You may have been referred to Pest-Ex by a friend or neighbour — and for good reason. Approximately 65% of our new business comes from word-of-mouth recommendations and referrals from satisfied customers. This level of trust is a direct result of our consistent professionalism and reliable service, which keeps clients returning to Pest-Ex whenever pest control is required.

Safety is a priority in everything we do — for our technicians, your home, and your family, including children and pets. We do not rely on low-grade, odorous chemicals. Instead, we invest in high-quality, approved products and apply them using professional methods that deliver effective results while maintaining a safe and comfortable environment. The result is a service experience that benefits both our team and our customers.

Our Process

CLIENT ENQUIRY

- Identify pest/termite concern
- understand property type & risk level
- site assesment (interior & exterior)
- identify pest species or termite activity
- locate entry points. nesting areas, risk factors

TAILORED TREATMENT PLAN

- method selection (pest/termite system)
- product choice (safe, approved solutions)
- Treatment scope & frequency

Execution & Launch

- targeted application by trained technicians
- minimal disruption to property
- safety protocols for occupants & pets

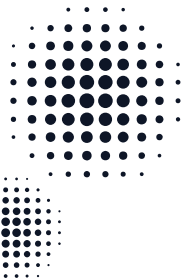

POST TREATMENT REVIEW

- effectiveness check
- client briefing & recommendations
- preventive advise provided

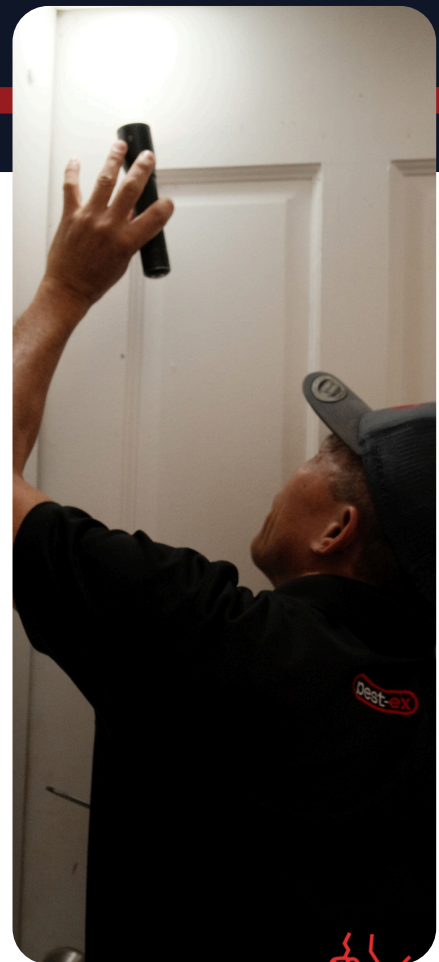

ONGOING PREVENTION & MAINTENANCE

- scheduled follow-ups
- monitoring
- long-term protection plans

Let's Work Together

"At Pest-Ex, we partner closely with our clients to provide safe, effective, and professionally managed pest and termite control solutions. Our approach is not just about immediate results — it's about building long-term relationships founded on trust, reliability, and the ongoing protection of your home or business. By combining our expertise with a tailored plan for each property, we ensure that every treatment prioritizes safety for your family, employees, and the environment while delivering lasting peace of mind."
